PUBLIC WIFI

WIFI SOLUTIONS FOR OUTDOOR EVENTS

At One World Rental we provide our clients with public wifi solutions, a personalised service tailored to specific events.

We design and implement.

Public wifi enables our clients to benefit in many ways. We can setup and pre-install apps that load branded login pages with customised forms for their guests.

After guests have logged in, a specific web page will be loaded that is fully tailored to your event, guests will be able to interact with other users, participate in live social media feeds and access digital presentation files.

Guests can further partake in voting, games and competitions enabling clients to capture live data for marketing and promotional.

We offer technical on-site support.

We provide on-site support and deployment of event technology products wherever the event is held. Our technical event staff are amongst the most skilled in the industry and will manage all the networking design and infrastructure.

Benefits to our clients:

- ✓ Grow your business email list
- ✓ Efficiently export captured data to use across various email platforms
- ✓ Increase genuine social media followers
- ✓ Save time on marketing
- ✓ Use built-in email marketing tools to easily re-engage your customers
- ✓ Increase in sales revenues
- ✓ Analyse sales trends and visitors
- ✓ Sponsorship opportunities
